

SPI January 2022 Update

New Church Planting Candidate

The Summit Planting Initiative is excited to announce a new church planting candidate, Pastor Lévy RICHÉ! Through SPI Haiti's mission trips to the southwestern region of Haiti affected by the earthquake, Pastor Abraham met Pastor Lévy, who is the Senior Pastor of Mission for Christ Church in Les Cayes, Haiti. After seeing the way SPI Haiti understands and conducts ministry, he is excited to join this family! **He will be starting with the SPI Haiti Training Center in March.**

Please join us in praying for his training, for his family, and for his church as they join the Summit Planting Initiative Haiti!

Happy Anniversary!

Montagne La Voûte – Six Years

Launched January 2016

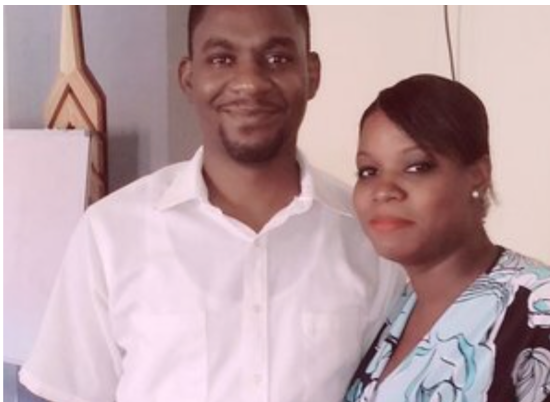

Originally a church planted by Pastor Abraham Comper, Harvest Montagne La Voûte partnered with Harvest Jacmel and Hope Bible Church Markham, as they transitioned to become a Harvest Bible Chapel. The Lord has blessed this place and stirred the hearts of those who come from this small, remote community in the mountains near Jacmel, and Pastor Renel Lebrun has served faithfully.

Cap-Haïtien – Four Years

Launched January 2018

Cap-Haitien is a large, urbanized city in northern Haiti, and Pastor Jethro has been faithful to follow the Lord's calling to minister to the people here. In the summer of 2017, Pastor Jethro was part of the Training Center's first graduating class, and he officially launched Harvest Cap-Haitien the following January. Since then, the church has seen tremendous blessing, as they continue to grow and have implemented small groups and new ministries.

Croix-des-Bouquets – Four Years

Launched January 2018

Croix-des-Bouquets is a northern suburb in the Port-au-Prince metropolitan area, and Pastor Nesly Alexis has been dedicated to following the Lord's lead in planting a church here. Pastor Nesly graduated the Training Center in the Summer of 2017, and in January 2018 launched Harvest Croix-des-Bouquets. Since then, they've seen God move firsthand, as the congregation has continued to grow.
